

SPECTRA SONICS

DJ Masaysa`s project- Spectra Sonics.

With his serious middle groove style, and amazing live sets, Spectra Sonics is well renowned within the Japanese trance scene as a top middle groove psy-trance artist. In 2010 he joined Grasshopper Records, but until then he had had many offers and requests for music by labels in Japan, such as Wakyo Records and Grasshopper Recs. He has also had offers from European labels such as 24/7Records and Mutagen Records. At still a very young age, Spectra Sonics is well expected to be a leading next generation artist.
